

Providence Family & Athletic Medicine
Farmington Hills, Milford, Novi

PATIENT CENTERED MEDICAL HOME

Thank you for choosing Providence Family & Athletic Medicine, a designated *Patient Centered Medical Home*, for your health care.

What is a Patient Centered Medical Home? It's *not* a building - it's a home base for your healthcare needs and is a partnership between you, your doctor and other office team members. The care you receive here is centered on *you* and *together* we will work towards making you as healthy as possible. Our practice was selected by Blue Cross Blue Shield of Michigan because of a strong commitment to primary care and improving medical outcomes for Michigan residents.

Our practice will provide you with the information needed to help maintain or improve your health. However, you must be willing to apply these tools to your lifestyle. Your visit with your doctor is always kept private, therefore, the more honest you are in answering the questions asked the better the doctor can diagnose and treat you.

The Patient-Provider Agreement Form explains this team approach and the mutual goals. Please take a moment to read through the agreement - if you have questions, feel free to share them with your physician or any staff member.
